

## Mixing Equipment : SRZ Double shaft mixer

[Click here](#)

Series: Mixer

Name: SRZ Double shaft mixer

Model: SRZ

Feature: Suitable to large-scale viscosity material, high dispersing effect, optional vacuum heating or cooling, hydraulic lift cover and mixing head, convenient inlet and outlet of material, Simple cleaning

Details: Sower multifunction mixer is the combination of high speed disperser and anchor mixer, which involve powerful mixing and high speed dispersing, it is suitable to mid & high viscosity and thixotropy material. Due to programmized dispersing and mixing craft, the machine takes on various functions such as mixing, dissolving, dispersing, and blend.

Power: 380V 50Hz/60Hz

Speed adjustment: Inverter speed control

Capacity: 150L -10000L

Seal: Double-end mechanical seal

Vacuum value:  $\leq -0.08$  mpa

Temperature: 0-300

Model choice

Model	Volume (L)	Mixing power(kw)	Mixing rotation (rpm)	Dispersing power (kw)	Dispersing rotation (rpm)
SDJ -150	150	1.1	85	4	0-1440

SDJ -300	300	1.5	65	7.5	0-1440
SDJ -500	500	2.2	65	11	0-1440
SDJ -800	800	3	65	18.5	0-1440
SDJ -1000	1000	4	41	22	0-1440
SDJ -2000	2000	7.5	41	37	0-1440
SDJ -3000	3000	11	36	45	0-1440
SDJ -5000	5000	15	28	75	0-960
SDJ -8000	8000	22	24	90	0-960
SDJ -10000	10000	30	20	132	0-960

Remarks: If working under the high temperature, high pressure, flammable, explosive, high causticity condition, and accurate parameters are required for model choice.

For more configurations, please contact our sales engineer.
