

Disperser : SWFS4 Dispersing Machine

[Click here](#)

Category: Dispersing machine series

Name: SWFS series hydraulic lift high speed dispersing machine

Model: SWFS4 Brand SOWER

Introduction: This machine is a chemical and mechanical equipment, mainly used for high viscosity mixing and dispersing, apply field include coating, printing links, petrification, mining, pharmacy, paper making, food, water treatment and fineness chemical industry.

Characteristic:

- 1)This machine suits for small, middle batch for industrial production use
- 2)With Hydraulic lift system, stable lifting, flexible
- 3)With advantages of portable structure, stable lifting, flexible, simple operation, explosion-proof
- 4)With imported famous brand inverter, various speed control

Technical parameter:

- 1)Motor power.4kW,7.5kW,15kW,18.5kW,22kW,30kW,45kW
- 2)Power supply. 380V,50Hz; according to customer's requirement
- 3)Rotate speed: 0-1,200r/min
- 4)Material of touching part: SS304 or SS316L

Lift way: Hydraulic lift

Main oversea market: Europe, America, the Middle East, the Southeast Asia, Africa and so on

External size: 1.490mmx540mmx1.710mm

Package: Wooden case, or according to customer's requirement

Packing size: 1.650mm×650mm×1.850mm

Min.order: 1 set Delivery time One month

Price terms: FOB Shanghai or CIF Payment term T/T or L/C at sight

Remarks: Characteristics of hydraulic lift high speed dispersing machine

a. From 4kW to 90kW, complete species

b. Speed: mono-speed, double speed, various speeds and none, various speed

c. Installation: ground type and platform type

d. Motor: common type and explosion-proof
